DENILSON “DENIS” CHAVEZ

PROJECT ANALYST | JUNIOR WEB DEVELOPER |
IT SUPPORT & SYSTEMS ASSISTANT

I am a hands-on Project Analyst and Junior Web Developer with a strong foundation in technical support and IT systems maintenance. I enjoy bringing teams together and solving problems with creativity and focus. With experience in Scrum, web design, and hardware/software troubleshooting, I work well under pressure and value clear communication and collaboration. I am a quick learner, eager and willing to take on new challenges and skills. I am passionate about using technology and agile methods to help projects run smoothly and deliver real value. As a native Spanish speaker and a beginner to intermediate English learner, I'm committed to continuously improving my language skills to grow both personally and professionally.

PROFESSIONAL EXPERIENCE
